MAYOR THINKS FALL CREEK PLAN ONLY FOR THE RICH FOLKS.

Thinks Small Lots Would Be Best-Cabinet Talks About the Several Questions Now Up.

At the monthly meeting of the Mayor's cabinet yesterday the heads of the various crowd," as the Mayor put it, was given precedence. Mr. Johnson said that semi- good buyers of September. annual reports in his department were Oats were we about finished, and that in a day or two he would prepare a comparative statement for the first six months of the year. President Downing, of the Board of Public Works, presented a written report of the last month's business. It was conceded that the Western Union Telegraph Company had a perpetual franchise, but in order to avoid any complications on that score, the city had decided to require the different companies to sign contracts for placing their wires under ground, the contracts to provide that they are to be given no privileges nor rights in addition to those contained in their original franchises. The city has about decided to require the companies to pay a gross sum into the city treasury for the damages that would be done to permanent improved streets by the digging of a trench for the wire conduits. The Mayor said that City Attorney Curtis was struggling along with the Phoenix Telephone Company franchise and that it would probably be ready in a few days. yellow-Centennial Ex. This brought out a general discussion of small parks. Mayor Taggart advanced the idea that it would be better for the park commissioners to buy several small plots of ground in the southern and northeastern part of town, rather than along Fall creek. A park along the banks of Fall creek, he said, would be a fine per keg, \$3.50; mule shoes, per keg, \$4.50; horse nails, \$4@5 per box. CHICAGO, June 30 .- Heavy exports, decrease in world's visible and bullish crop reports in Illinois caused an up-turn in wheat to-day. September closed at 50%c. or 1/2c above yesterday. Corn and cats were a little stronger and provisions were

practically unchanged. There was more life and increased activity displayed in wheat and the market attracted greater attention than for some time, the range for the day being 1% cents. The start was at an advance of %@%c and gradually worked up 1%c, eased off 4c, changed some and closed within 1463c of the top figures. The firmness was started by the Illinois State report, which 1,255 made the condition of winter wheat 68 per cent, and then there was a better tone to the stock market in New York, which also proved a help to the market. Cables, that is Liverpool, considering the drop on this side yesterday, did not show the decline expected, coming 4d lower and were also taken as an indication of firmness on the other side. July liquidation, too, was not so general and something of a help to the market. Among the bear influences of the day was the favorable weather conditions all over the country and predictions are for a continuance of the same. The Northwestern movement keeps up beyond all previous calculations, arrivals there to-day exceeding those of the same date last year by 304 cars. There was a better grade in corn, the market attracting better attention, espe-

cially during the early part of the session, the range for the day being %@%c. The feeling developed was stronger and there was better buying, that is to say, the same was more general on the theory, departments "reported progress." There was a good trade, but it showed a slight decrease. After prices started up the offerings decreased. The Illinois crop report made the condition over 100 and a private report gave the country at 93.8. Large exports, 476,000 bushels, were a bull

Trade in provisions was confined almost entirely to changing open trades in July to September. The prices remained very steady and rather firm until about thirty minutes from the close, when pork weakened and left off from 21/2c to 5c below yesterday's closing.
